Portfolio: projectsportfolio-nine.vercel.app

PROFESSIONAL SUMMARY

Computer Science and S.T.E.M. educator with a professional background in information technology, cybersecurity, AI data evaluation, and K-12 instruction. Experienced in standards-aligned instruction, differentiated learning, educational technology, and student-centered teaching across classroom and virtual environments. Combines instructional experience with real-world technology knowledge to connect computer science concepts to practical applications, problem-solving, and technology career pathways.

TEACHING CREDENTIALS

New Jersey Department of Education - CTE Computer Science Technology, Certificate of Eligibility

Florida Department of Education - K-12 Computer Science, Statement of Eligibility

CORE COMPETENCIES

Computer Science Instruction • S.T.E.M. Education • Project-Based Learning • Curriculum & Lesson Planning • Differentiated Instruction • Classroom Management • Student Assessment • Educational Technology • Virtual Instruction • Digital Citizenship • Cybersecurity Fundamentals • Student Engagement

PROFESSIONAL EXPERIENCE

Educator

Edmentum | Remote | March 2025 - Present

- Deliver targeted skills instruction through individualized and small-group virtual sessions across middle and high school mathematics, English language arts, and reading.
- Identify specific learning gaps and adapt instruction to students working at varying academic levels and levels of readiness.
- Break down challenging concepts using modeling, questioning, guided practice, and targeted feedback to strengthen understanding and independence.
- Measure student mastery through assessments administered at the conclusion of instructional lessons and use results to determine readiness for subsequent skills.
- Support students working below grade level in strengthening foundational skills, improving focus and academic confidence, and progressing toward grade-level readiness for the following school year.

Educator (Temporary)

Charter Schools USA | Fort Myers, FL | 2015 - 2016

- Taught mathematics and science to fifth-grade Cambridge students through standards-aligned, inquiry-based instruction.
- Planned and delivered daily lessons emphasizing conceptual understanding, critical thinking, problem-solving, and active participation.
- Differentiated instruction and provided targeted support, tutoring, and enrichment based on student readiness and learning needs.
- Used formative assessment, questioning, observation, and student work to monitor understanding and adjust instruction.
- Established clear classroom expectations and behavior-management strategies to maintain a structured, respectful, and productive learning environment.

AI & DATA EXPERIENCE

AI Data Annotator / Evaluator

RWS | Remote | October 2025 - Present

- Review and evaluate AI-generated content for accuracy, relevance, quality, and adherence to project guidelines.
- Apply detailed annotation standards and analytical judgment to support machine-learning data quality.
- Identify errors, inconsistencies, and edge cases requiring careful evaluation and classification.

AI Data Annotator / Evaluator

TELUS | Remote | 2019 - 2023

- Evaluated and annotated digital content used to improve artificial intelligence and machine-learning systems.
- Assessed content and outputs against defined criteria for accuracy, relevance, usefulness, and quality.
- Applied analytical reasoning and attention to detail while interpreting detailed project guidelines and ambiguous cases.

TECHNICAL & INDUSTRY EXPERIENCE

SaaS Technical Support

HHAAeXchange | Remote | September 2024 - December 2024

- Resolved software and provider-related issues using systematic troubleshooting and problem-solving.
- Collaborated with product and engineering teams to address recurring issues and support platform usability.
- Contributed to technical documentation and workflows supporting efficient issue resolution.

Technical Support

CenturyLink | 2012 - 2014

- Diagnosed and resolved connectivity, configuration, and end-user technology issues.
- Explained technical concepts and troubleshooting procedures to users with varying levels of technical knowledge.
- Supported knowledge sharing, documentation, and new-hire training.

Technical Support

AT&T | 2006 - 2008

- Troubleshoot connectivity, configuration, and service-related technology issues.
- Guided end users through technical solutions using clear communication and structured diagnostic processes.

Earlier Technical Experience

Technosource - IT & Administrative Support | 2002

Time Warner Cable / The Answer Group - Technical Support | Earlier Career Experience

- Provided technical troubleshooting, end-user support, documentation, and systems assistance across municipal and telecommunications environments.

EDUCATION

Bachelor of Science - Information Technology and Security

University of Phoenix | Cum Laude

Associate of Arts - Elementary Education and Teaching

University of Phoenix

TECHNICAL SKILLS

Programming & Web: Python Fundamentals • HTML • CSS • JavaScript Fundamentals • Git • GitHub

IT & Security: Technical Troubleshooting • SaaS Support • Networking Fundamentals • Cybersecurity Fundamentals • Digital Safety

Data & Analytics: Excel • Power BI • Tableau • Data Analysis • Data Visualization

Educational Technology: Learning Management Systems • Virtual Instruction Platforms • Digital Content Creation

Professional Technology: CRM Systems • Technical Documentation • Microsoft Office
